Kang Research Group AGU 2018 Itinerary

H12C-01: Fundamentals of Darcy Flow: Local Groundwater Flow Patterns Unraveled
Presenter: Peter Kang Monday, 10 December 2018, 10:20 - 10:35 (oral)

H51P-1517: Mixing and Mass Partitioning at Fracture Intersections: The Effects of Surface Roughness and Flow Rate
Presenter: WoongHee Lee Friday, 14 December 2018, 08:00 - 12:20 (poster)

H51P-1518: Understanding Mixing and Reaction at Rough Fracture Intersections with Microfluidics Experiment
Presenter: SangHyun Lee Friday, 14 December 2018, 08:00 - 12:20 (poster)

H51P-1519: Anomalous Transport in 3D Discrete Fracture Networks: Interplay between Aperture Heterogeneity and Particle Injection Modes
Presenter: Peter Kang Friday, 14 December 2018, 08:00 - 12:20 (poster)
